## SENIOR BACKEND ENGINEER (PHP/LARAVEL) | SAAS | APIs | MYSQL

Backend Systems Engineer with 17+ years of experience building scalable SaaS platforms and backend systems. Specialized in Laravel, REST APIs, MySQL performance optimization, and legacy system refactoring. Proven track record of developing reliable, high-performance systems used in real business environments.

### TECHNICAL SKILLS

#### Backend Development:

PHP (Laravel, CodeIgniter), Node.js (Express.js)

#### API Development:

RESTful APIs, SOAP APIs, API Integration

#### Databases:

MySQL (Query Optimization, Indexing, Schema Design)

#### System Design & Architecture:

SaaS Applications, Backend Systems, Data Modeling

#### Performance & Optimization:

Caching (Memcache), Query Optimization, Performance Tuning

#### Integrations:

Payment Gateways, Third-Party APIs, External Services

#### DevOps & Deployment:

AWS (S3), cPanel, Git

#### Frontend (Supporting):

HTML, CSS, JavaScript, jQuery, AJAX

# DOMAIN EXPERIENCE

- SaaS Platforms
- E-commerce Systems
- Compliance & Risk Management Systems
- Background Verification Systems

# PROFESSIONAL EXPERIENCE

## Senior Backend Engineer

**Sudo Consultants** | Feb 2024 – Present | Karachi

- Developing SaaS applications using PHP (Laravel) for production systems
- Building and scaling marketplace platforms for pharmacy-based solutions
- Designing and implementing REST APIs for multi-user platforms
- Structuring backend systems for scalability, maintainability, and performance
- Integrating third-party services and managing complex data workflows

## Senior Back-end Developer

**RetroCube** | Sep 2022 – Apr 2023 | Karachi

- Built backend services using Node.js and Express.js
- Designed and implemented REST APIs powering mobile applications
- Developed real-time features using Socket.IO
- Managed deployments on AWS (S3) and cPanel environments
- Ensured API reliability, performance, and seamless integration

## Senior PHP Developer

**Arthur Lawrence** | Oct 2021 – Oct 2022 | Karachi

- Developed backend systems using PHP (Laravel/CodeIgniter)
- Designed integrations across multiple services and databases
- Translated business requirements into scalable technical solutions
- Enforced coding standards and improved system maintainability
- Maintained technical documentation for systems and APIs

## PHP Consultant

**Telebu Communications** | Mar 2022 – Sep 2022 | Remote

- Provided backend consulting for PHP-based SaaS platforms
- Integrated backend services and databases
- Improved system architecture, code quality, and maintainability

- Delivered solutions aligned with business requirements

## Senior PHP Developer (Contract)

**Rising Hightech** | Nov 2020 – Apr 2021 | Dubai

- Developed backend systems and service integrations
- Designed data flows across multiple systems and databases
- Applied best practices in code quality and architecture
- Delivered scalable backend solutions

## Senior PHP Developer

**AWOK.com** | May 2019 – Apr 2020 | Dubai

- Built and maintained scalable e-commerce backend systems
- Designed REST and SOAP APIs for integrations
- Optimized MySQL databases for performance and reliability
- Integrated payment gateways and third-party services
- Improved system performance using caching mechanisms (Memcache)

## Senior Web Developer

**World Business Network** | Aug 2017 – Oct 2018 | Dubai

- Developed backend systems and integrations for business applications
- Managed data flows across multiple services and databases
- Delivered scalable solutions aligned with business needs

## Senior Developer

**ethiXbase** | Feb 2014 – Mar 2017 | Malaysia

- Built SaaS-based compliance and risk management platforms
- Designed backend systems handling large structured datasets
- Developed systems supporting due diligence and verification workflows
- Delivered scalable, maintainable enterprise solutions

## Owner / Founder

**Xprescards** | Feb 2013 – Mar 2016

- Built and managed an online greeting card platform
- Designed backend systems ensuring performance, reliability, and security
- Handled full system architecture and development

## Web Architect (PHP Software Engineer)

**RiskDiscovered** | Oct 2010 – Jan 2014 | Karachi

- Developed backend systems for verification and compliance platforms
- Built optimized PHP modules and database-driven applications
- Developed internal portals and workflow systems
- Improved system performance and reliability

## Earlier Career

**PHP Web Developer – Salsoft Technologies** (2008–2009)

**PHP Developer – ndARTS.ca** (2008)

**iPhone Developer – Addictive Mobility** (2010)

**PHP Instructor – Freelance** (2010–2011)

## KEY PROJECTS

### **ethiXbase360 / CrossCheck360**

- Built backend systems for compliance, verification, and risk assessment platforms
- Designed systems supporting complex workflows and large structured datasets

### **AWOK E-commerce Platform**

- Contributed to backend systems supporting large-scale product catalog, payments, and user workflows

## REMOTE WORK CAPABILITY

- Experienced working with distributed teams and remote collaboration
- Able to work independently and deliver production-ready systems
- Strong communication with product, frontend, and stakeholders across time zones

## EDUCATION

### **Bachelor of Science (BS) in Software Development**

Institute of Business & Technology (BIZTEK)

Karachi, Pakistan
